

The Therefore Quality Assurance department in Vienna/Mödling is looking for a creative, quality-oriented problem solver to join their growing team:

## Test Automation/QA Engineer (m/f)

### Your responsibilities:

As a Test Automation/QA Engineer you are responsible for ensuring the quality of our product within our diverse QA team. This includes the design and creation of automatic tests within our automation framework and also manual testing.

### Your Profile:

Required Skills:

- University or similar degree in computer science; students are welcome
- Problem solving skills and quality awareness
- Good communication, analytic and conceptual skills
- Fluent verbal and written knowledge of English
- Knowledge of Visual C# programming

In addition, you should have a number of the following skills:

- Good knowledge of Microsoft operating systems
- Basic knowledge of transactional databases
- Good knowledge of Microsoft Test Manager and Microsoft® Test environments or similar environments
- Experiences as a Test Automation or Software Quality Engineer; ISTQB preferred

### The Rewards:

- A challenging and diversified job in a flexible work environment
- A challenging and multifaceted job in an international, rapidly growing company
- Easily accessible office – directly above the Mödling railway station
- Possibility for home office and part-time contract (min. 30h/week)
- Minimum gross salary starting at €30.618 a year, 38,5 hours/week as per collective agreement (salary may be adjusted based on qualifications and experience)

We're looking forward to meeting you! Apply in English or German, with your CV, cover letter and photo to [career@therefore.net](mailto:career@therefore.net)
